

MICHAŁ SZENIAK

FRONTEND DEVELOPER

PROFILE

Passionate Front-End Developer with over 2 years of experience building different types of projects. Adept at using React technology, able to write high quality, simple code, even for complex problems. Looking for a challenging opportunity to use my skills and experience to create innovative and user-friendly web applications. Currently, I am dedicated to honing my skills in Node.js, further enriching my expertise in full-stack development.

INTERESTS

I follow new technologies with interest, especially those related to web design.

Apart from that, I enjoy visiting new places, watching sports matches, and savoring a good cup of coffee.

EMPLOYMENT HISTORY

FRONTEND DEVELOPER

ULTIMATE SYSTEMS, KRAKÓW | 01.08.2021 - PRESENT

- Member of a team responsible for developing multiple applications using React technology.
- My proficiency in independent coding has supported implementing a CRM system, a website for cancer treatment, e-learning and task management.
- Active listening skills have allowed me to be a strong team player. As a team, we successfully developed functional solutions and implemented various features that met the needs of our business clients
- Expanded my programming skills to encompass a wide range of tasks, including Backend Integration, chart creation, Storybook component development, calendar integration, the addition of new features and the utilization of component libraries.
- My proactive approach and innovative solutions have significantly streamlined the development team's workflow, ultimately leading to high levels of client satisfaction.
- My experience working in a Scrum-based environment has further enhanced my competence in organizing work and fostering effective team communication.
